

GREJ-US REPRODUCTIVE JUSTICE STRATEGY VISUALIZATIONS

GREJ-US REPRODUCTIVE JUSTICE STRATEGY

STRENGTHEN THE FIELD

A strong field of national actors committed to reproductive justice ensures the needs of the most impacted communities are reflected in national priorities.

STATE-LEVEL ADVOCACY AND IMPLEMENTATION

State-level policy and implementation ensures greater access and affordability to the full spectrum of reproductive care.

CATALYZE A BROADER COMMITMENT TO REPRODUCTIVE JUSTICE

A coalition of local, state, and national actors unite in supporting policies that center bodily autonomy and build support for the full spectrum of reproductive care.

GREJ-US REPRODUCTIVE JUSTICE STRATEGY

STRENGTHEN THE FIELD

If we:

Provide longer term and multi-year support to national-level organizations that:

- focus on policy development, advocacy, and organizing,
- have proven track records of state and regional level work,
- are BIPOC-led with deep connections to most impacted communities,
- are committed to advancing accessible and affordable reproductive health care,
- are working to increase alignment within the reproductive justice field.

Then:

A strong field of national actors committed to reproductive justice coordinates national priorities will reflect the needs of the most impacted communities.

STATE-LEVEL ADVOCACY AND IMPLEMENTATION

If we:

- Mitigate the harms from abortion bans by supporting reproductive justice organizations in states where abortion is legal.
- Support organizations in states where abortion is banned to realize reproductive justice outcomes.

Then:

State-level policy and implementation will ensure greater access and affordability to the full spectrum of reproductive care.

CATALYZE A BROADER COMMITMENT TO REPRODUCTIVE JUSTICE

If we:

Unite the reproductive justice field with other social justice movements, including trans, disability, and racial justice fields around a cohesive solidarity agenda focused on the reproductive health needs of the most impacted communities.

Then:

A diverse coalition of local, state, and national actors will build broad support for the full spectrum of reproductive care, centered on the needs of the most impacted communities.
